MAINTENANCE 2011 (Antwerpen, B)

Datum: Mittwoch, 6. April 2011 (Ganztägig) bis Donnerstag, 7. April 2011 (Ganztägig)

2011: under the banner of SUSTAINABLE MAINTENANCE
If your company specialises in the field of maintenance technical products or services and addresses such issues as efficiency, durability, energy, e-maintenance or eco-maintenance, then this is THE SHOW FOR YOU!

And here's where you will meet potential customers - Projects and Department Heads Care and Maintenance Managers - who are actively looking for such solutions to include in their improvement programs.

Simply put: the seventh edition of easyFairs® MAINTENANCE will be devoted to 'sustainability in industrial maintenance'... or, in other words, "Asset Healthcare".

The visitors to easyFairs® MAINTENANCE expect more than just a representative overview of the current market offering in leading-edge technologies: they also rely on the show providing them opportunities for learning about best practices, sourcing new suppliers and finding solutions to their toughest maintenance challenges. And that's just what easyFairs® MAINTENANCE delivers, in the form of a regionally-organised trade fair as marketplace and sales platform!
