NEXT Maintenance (Rotterdam, NL)

Datum: Dienstag, 12. April 2011 (Ganztägig) bis Donnerstag, 14. April 2011 (Ganztägig)

The essence of Maintenance NEXT will remain the same as it was when it was still known as Industrial Maintenance, in that exhibitors will present their products and services. The difference will be that a larger amount of tangible technology and technology will be on display. Pride and interactivity are the keywords here, both in terms of proven technology and innovative technology.

Maintenance NEXT will include:

- Innovative technology
- Dynamic presentations on stands
- More interaction and perception
- Cross-fertilisation between maintenance professionals from all sectors
- An extensive knowledge programme for decision-makers
- Support from leading sector associations

As a technology and maintenance expo, Maintenance NEXT forms the perfect showcase for technology, knowledge, value and innovation.
