# Euromaintenance 2014 (Helsinki)

**Datum:** Montag, 5. Mai 2014 (Ganztägig) bis Donnerstag, 8. Mai 2014 (Ganztägig)

Maintenance is a life-long learning process and the maintenance business is developing at a speed which no-one is able to manage alone. As the President of the European Federation of the National Maintenance Societies (EFNMS), I am proud to invite you to the largest maintenance and physical asset management event ever organized in Europe - EuroMaintenance 2014 Congress & Expo. This is a unique opportunity to learn new methods and strategies to improve the competiveness in the globalizing world through effi cient maintenance and asset management - and the perfect place for networking!
The congress offers a massive information package of best practices and latest research results. The focus of the presentations and lectures is in case studies where top business leaders from Global World Class companies share their best practices and success stories. Education and research have been allocated their own sessions where maintenance and asset management specialized professors from international universities will act as key speakers presenting their current educational programs and latest research developments. The World Congress of Asset Management organization will complement the event with presentations and a workshop on physical asset management. EuroMaintenance 2014 Expo is a large maintenance and industrial exhibition attracting all major maintenance product and service providers together in the modern Helsinki Exhibition & Convention Centre. I am convinced that you will fi nd it benefi cial to participate. Do not miss this opportunity!
